First edition, 2026.

No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means without prior written permission from the publisher, except for brief quotations used for review, teaching or scholarly reference where permitted by law.

This book is an educational and professional-development resource. Readers should apply professional judgement and consult current laws, regulations, standards and institutional policies where a matter requires formal legal, regulatory or professional interpretation.

Preface

Research, Consultancy and Advisory brings together the disciplines of research methodology, professional consulting, advisory practice, facilitation, coaching and engagement management in one applied volume. Its purpose is to help readers move confidently from problem definition and evidence gathering to analysis, judgement, recommendation and implementation.

The book is organised as a progressive learning journey. The opening chapters establish the foundations of research and evidence. The middle chapters translate evidence into professional reports, consultancy and advisory work. The final chapters develop facilitation, coaching, consulting-process management and the management of a professional consulting practice.

Throughout the book, emphasis is placed on disciplined reasoning, ethical judgement, client-focused application, clear communication and practical implementation. Worked examples, structured tables, practice activities, review questions and chapter recaps are included to support both guided learning and independent study.

How to Use This Book

Begin each chapter with the learning objectives and chapter roadmap. These establish the concepts, skills and professional applications that should be mastered before moving on.

Read the explanatory sections for meaning rather than memorising isolated definitions. Use the professional examples and comparison tables to connect concepts to realistic organisational situations.

Complete the practice and application activities without immediately consulting the suggested answer frameworks. Use the review questions and chapter recap for retrieval practice, then return to any section where your explanation, application or judgement remains weak.

The book is designed to be cumulative. Later chapters assume familiarity with earlier research, evidence, professional-ethics and client-management concepts, so periodic revision across chapters is encouraged.

Contents

Research Foundations, Theories and Research Approaches	1
Learning Objectives.....	1
Chapter Roadmap.....	1
Research as a Professional Discipline	1
The Research Architecture: Philosophy to Methods.....	2
Quantitative, Qualitative and Mixed-Method Methodologies.....	3
Research Design	4
Selected Research and Consultancy Theories.....	4
Types of Research	7
Research Ethics and Integrity	9
Integrating Theory, Design and Ethics: Applied Case	11
Assessment Patterns for Chapter 1.....	11
Guided Practice and Application	12
Review Questions.....	13
Chapter Recap.....	14
Independent Study Tasks	14
Problem Formulation, Literature Review and Hypothesis Testing.....	15
Learning Objectives.....	15
Chapter Roadmap.....	15
From an Organisational Issue to a Research Problem.....	15
Writing the Problem Statement.....	17
Research Questions	17
Research Objectives	18
Literature Review	19
Conceptual Framework	20
Research Hypotheses	21
Basic Concepts in Hypothesis Testing.....	22
Type I and Type II Errors	24
Tests of Significance: Introductory Selection	25
Integrated Applied Case	26
Assessment Patterns for Chapter 2.....	26
Guided Practice and Application	27
Review Questions.....	28
Chapter Recap.....	28

Independent Study Tasks	28
Sampling and Data Collection	30
Learning Objectives.....	30
Chapter Roadmap.....	30
Sampling in Applied Research.....	30
Developing a Sampling Design	31
Probability and Non-Probability Sampling.....	32
Simple Random Sampling	32
Systematic Sampling.....	32
Stratified Sampling.....	33
Selected Non-Random Sampling Methods	34
Data Sources: Published and Unpublished Evidence.....	35
Methods of Data Collection	36
Interview Method: Strengths and Professional Controls.....	36
Stages in Data Collection	37
Guidelines for Collecting Reliable Data	37
Consequences of Inaccurate Data Collection	38
Designing a Good Questionnaire	38
Questionnaire Construction Workflow	39
Mini Practical: Build a Questionnaire from Objectives	39
Integrating Sampling and Data Collection in a Consultancy Study	40
Worked Examination Applications.....	40
Examination Technique for Sampling Questions	41
PRACTICE AND APPLICATION Questions.....	41
Suggested Answer Guides	42
Review Questions.....	44
Recap	44
Data Processing, Analysis, Interpretation and Presentation	45
Learning Objectives.....	45
Chapter Roadmap.....	45
From Raw Data to Analysis-Ready Evidence	45
Meaning and Purpose of Data Analysis	47
Univariate Analysis and Frequency Distributions.....	47
Measures of Central Tendency.....	48
Measures of Dispersion and Variability	49
Selecting Data-Analysis Techniques	50

Significance Testing in Applied Research.....	50
Use of Software in Data Processing and Analysis	51
The Cyclic Nature of Research	52
Data Interpretation	52
Data Presentation	53
Interpretation and Presentation Clinic	54
Exam-Aligned Practice Questions	55
Selected Model Answer Frameworks	56
Chapter 4 Applied Activity	56
Review Questions.....	57
Chapter Recap.....	57
Research Reports, Proposals and Referencing	59
Learning Objectives.....	59
Chapter Roadmap.....	59
Significance of Research Report Writing.....	59
Steps in Writing a Research Report	60
Layout of a Research Report	61
Types of Research Reports	62
Precautions in Writing Research Reports.....	62
Research Proposal: Meaning and Purpose.....	63
Format and Contents of a Research Proposal	64
Structuring the Certified Secretaries Research Project.....	65
Presenting Data in the Report	65
Oral Presentation of Research	66
Referencing and Citation	67
Referencing Styles	67
Core APA Seventh Edition Features	68
References, Bibliography, Footnotes and Endnotes.....	68
Citing Primary and Secondary Sources	69
Exam-Aligned Practice Questions	69
Selected Model Answer Frameworks	70
Chapter 5 Applied Activity	71
Review Questions.....	71
Chapter Recap.....	72
Introduction to Consultancy and Advisory	73
Learning Objectives.....	73

Chapter Roadmap.....	73
Meaning of Consultancy and Advisory	73
The Nature and Purpose of Management Consulting	74
Why Organisations Engage External Consultants.....	75
Roles and Qualities of an Effective Consultant.....	76
Developing Internal Consulting Skills	76
Consultancy versus Advisory Services.....	78
Consultant Skills and Knowledge Requirements.....	79
Managing Time and the Consulting Assignment	80
Managing Customer Expectations	80
Creative Problem Solving in Consulting	81
Communication and Client Work.....	81
Organisational Politics and Conflict	81
The Client-Consultant Relationship	82
Professionalism, Independence and Ethics	82
The Consulting Industry	84
Service Quality in Consultancy	85
Applied Case: Governance Improvement Assignment.....	85
Mid-Semester review assessment Readiness: Chapters 1 to Five.....	86
Practice and Application.....	87
Review Questions.....	87
Recap	88
Advisory Discipline and Conducting Consultative Services	89
Learning Objectives.....	89
Chapter Roadmap.....	89
The Advisory Discipline	89
Role of an Advisor	90
Qualities of a Good Advisor	90
Advisory Work in Strategy, Execution and Accountability.....	91
Crisis Management and the Advisor	91
Business Resilience	92
The Business Planning Process	92
Client Discovery.....	93
Building Trust, Confidence and Credibility	93
Basic Consultative Approaches	94
Comparing the Consultative Approaches	96

Client and Consultant Systems	96
Defining Roles and Expectations	97
Critical Dimensions of the Client-Consultant Relationship.....	97
Managing the Client-Consultant Relationship	98
Negotiation, Persuasion and Coaching-Oriented Skills	98
Professionalism in Consulting.....	99
Professional Associations, Codes, Certification and Licensing	99
Professional Ethics in Advisory Practice	100
Conflict of Interest.....	100
Legal Liability and Professional Responsibility	100
Integrated Case: Governance Advisory Assignment	101
Practice and Application.....	102
Review Questions.....	102
Recap	103
Facilitation Skills and Group Decision-Making	104
Learning Objectives.....	104
Chapter Roadmap.....	104
Introduction to Facilitation.....	104
Purposes of Facilitation.....	105
Role of the Facilitator	105
Skills of an Effective Facilitator.....	105
Facilitation, Instruction, Training and Chairing.....	106
The Facilitation Process	106
Problem and Goal Identification.....	107
Problem Resolution and Decision-Making	107
Group Dynamics.....	107
Dysfunctional Group Behaviour.....	108
Team Development and Facilitation.....	108
Group Decision-Making Methods.....	109
Consensus Building.....	109
Brainstorming.....	109
Clustering	110
Voting and Multi-Voting.....	110
Process Mapping	110
Storyboarding.....	110
Ishikawa / Fishbone Diagram.....	110

Nominal Group Technique	111
de Bono Thinking Hats	111
Performance-Problem Solving.....	112
Selecting the Right Facilitation Tool	112
Handling Controversial Issues.....	112
Communication and Listening	112
Verbal and Non-Verbal Cues	113
Effective Feedback in Facilitation.....	113
Divergent Perspectives	113
Presentation Planning.....	114
Effective Use of PowerPoint.....	114
Leveraging ICT in Facilitation	114
Designing a Facilitation Plan	115
Examination Technique for Facilitation Questions.....	116
PRACTICE AND APPLICATION Questions.....	116
Short Review Questions	117
Recap	118
Independent Study and Practice	118
Closing Note	118
Coaching Skills and Structured Coaching Sessions.....	119
Learning Objectives.....	119
Chapter Roadmap.....	119
Meaning and Purpose of Workplace Coaching.....	120
Role of an Effective Coach	120
Skills of an Effective Coach	120
Managing from a Coaching Perspective	121
Coaching and Constructive Criticism	121
Creating a Safe and Supportive Coaching Environment	121
Probing and Questioning Skills	122
Listening, Reflecting, Mirroring, Paraphrasing and Summarising.....	122
Workplace Coaching Techniques	123
Motivational Coaching.....	123
Limitations of Coaching.....	123
Coaching Compared with Related Roles	123
The GROW Model.....	124
Applying the GROW Model.....	125

Matching Coaching Style to the Situation.....	125
Planning a Structured Coaching Session	125
Delivering a Structured Coaching Session	126
Managing Resistance During Coaching	126
Measuring Coaching Success and Impact.....	126
Monitoring and Evaluation Framework for Coaching	127
Ethical and Professional Considerations in Coaching	127
Integrated Coaching Case.....	128
Examination Technique for Coaching Questions.....	128
PRACTICE AND APPLICATION Questions	128
Short Review Questions	129
Recap	129
Independent Study and Practice.....	130
Closing Note	130
The Consulting Process: Contracting, Action Planning, Implementation and Termination.....	131
Learning Objectives.....	131
Chapter Roadmap.....	131
The Consulting Process as a Professional Cycle	131
Entry into a Consulting Engagement.....	132
The First Client Meeting	132
Preliminary Problem Diagnosis	133
Terms of Reference	133
Technical and Financial Proposals	133
The Assignment Strategy and Plan.....	134
Proposal to the Client and the Consulting Contract	134
Project Types, Cycles and Project Management.....	135
Service Quality in the Consulting Process	135
Presentations and Ongoing Client Communication	135
Action Planning	136
Evaluating Alternatives	136
Presenting the Action Proposal	137
Client Involvement in Action Planning.....	137
Implementation of Recommendations.....	137
Training and Developing Client Staff.....	138
Tactical Guidelines for Change in Work Methods	138
Monitoring and Control of New Practice	138
